About OneTI

One Treasure Island (OneTI) was founded in 1994 to provide housing and job opportunities for homeless and low-income San Franciscans through the redevelopment of the decommissioned Treasure Island Navy Base.

This mission has greatly expanded to include building a thriving, supportive and inclusive community that welcomes residents, employees, businesses, and visitors.

With core values that include collaboration and equality, One TI strives to ensure every voice is heard, with those who have experienced homelessness or come from lower-income households at the center of our mission. As the island undergoes a transformation, we will continue to champion for our communities to ensure everyone can call Treasure Island home.

Why volunteer with One TI?

Treasure Island is an important piece of San Francisco's history and future. It is currently undergoing a revolutionary development and stakeholders are very consciously creating an inclusive and diverse mixed-income community where everyone can thrive.

Volunteering with One Treasure Island aids in the advancement of resident-driven initiatives that not only greatly benefit the TI community, but also provide exposure for Treasure Island and its bright future.
